Fire Guts Apartment Near Bridge

A \$20,000 fire early Sunday morning gutted two stories of a three-floor building near the Broadway bridge. The building, was owned by Mrs. Mazie Philipps.

The fire apparently broke out in the second floor apartment of Mr. and Mrs. Joe Noplis when a curtain came in contact with a gas heater.

Noplis was awakened by the heat and smoke around 2 p.m. and barely managed to get his wife and baby out of the building. Noplis, according to Sizemore, returned to the third floor of the building, and aroused C. E. Haney, the occupant, to make his escape.

2 Floors Destroyed

The entire second and third floors of the building were gutted, Sizemore said. Personal effects of the Noplis' and Mr. Haney were also lost. Neither family had time to get anything out.

Cold weather hampered city firemen in their efforts to fight the blaze. Water froze to their clothing and streets, making movement difficult.

Firemen fought the blaze for 40 minutes before bringing it under control and remained at

the burning building until 5:30 a.m.

Curtain Blazes

Sizemore said Noplis told him the curtain had probably started the fire. Wind passing through an open window, Noplis told Sizemore, probably brought the curtain into contact with a gas heater nearby. Firemen prevented flames from spreading to a nearby building where heat blistered the paint.

The city fire department received the call at 2:15 p.m. and arrived at the fire three minutes later.

Coal Tipple Burns Here

A coal tipple belonging to the Bondell Coal Co., Darfok, was destroyed by fire last week. The loss ran to \$20,000.

City fire equipment could not answer the call because the firm had not entered into a contract agreement with the city for use of the fire equipment.

College Head To Speak Here

James T. Jeremiah, president of Cedar Grove College, Cedarville, Ohio, will be guest speaker, Jan. 21 and 22 at the Berean Baptist Church, Slemp, Jan. 23 and 24.

All meetings will begin at 6:30 p.m. Cedar Grove College is in its fourth year of operation.

League Has One Opening To Be Filled

Perry County's Independent Basketball league opened its season, Friday night, at the Viper gym with a double header. The Miner's Memorial Hospital defeated the Lohrath Independents, 51-39, and Home Lumber Co. edged the Hazard Jaycees, 41-40.

Din Maggard, league chairman, announced today a team sponsored by the Kentucky Power Company brings to sever the number of squads in the league. Maggard said there now remains but one berth in the league to be filled. Teams interested should contact him.

Tonight's fare pits Pepsi Cola against the Joe Burton Independents. Game time is 6:30 p.m. at Viper.

Town Mountain Road Scheduled For Contract

The Town Mountain road, from the I. & N bridge in Hazard to the mouth of Big Creek, below Combs, will reportedly be placed under contract in early spring, the Hazard Herald was reliably informed, Saturday.

The road will shorten the distance from Hazard to Hyden by approximately 5 miles.

From the bridge, the road will traverse Town Mountain, connecting into Kentucky 80 at the mouth of Big Creek. Construction reportedly calls for an asphalt surface.

Efforts to bring about construction on the route were renewed last year when Mayor Douglas Combs, Commissioner Calloway Colwell, and former commissioner R. W. Gibson, and City Manager Hobert Wooten met in Frankfort with Rural Highway Commissioner J. B. Wells.

At that time, Wells indicated the road would be given priority consideration.

Wells reportedly informed State Senator M. B. "Tug" Fields last week during the opening session of the legislature that the road would be placed under contract in the spring.

The letting of a contract is automatic to starting immediate construction.

Buckhorn Dam

President Dwight Eisenhower's budget recommendations include \$3,500,000 for construction work on the Buckhorn Reservoirs, Congressman Carl Perkins announced this afternoon in a telegram to the Herald.

Perkins noted he had requested \$4,600,000 for the project and said the public will be informed of the date of a hearing before the House Appropriations Committee on the dam.

Cooper On UK Law Paper Staff

Fifteen law students and a member of the law faculty at the University of Kentucky make up the editorial board for the Kentucky Law Journal, which has its fall issue published recently.

James Park, Jr., and Leslie W. Morris II, both of Lexington, are co-editors. Glenn L. Greene, Jr. of Harlan, is note editor, and Jesse S. Hogg, Whitesburg, is comments editor. Other members of the board are Paul A. Saad, Pikeville; John D. Miller, Stanley; Joseph B. Helm, Louisville; Henry H. Dickinson, Glasgow; James H. Frydwell, Shelbyville; Fred F. Bradley, Providence; Charles E. Goss, Harlan; Robert E. Adams, Salsberyville; Arthur L. Brooks, Jr., Cave City; Linna Inbanit Lawrenceburg; Richard D. Cooper, Hazard, and Prof. Thomas Lewis, faculty editor.

Appointments to the editorial board are made by the faculty of the College of Law on the basis of high scholastic standing and the ability to do legal research in writing.

Mrs. Gorman Elected Head Of Cancer Group

Mrs. L. D. Gorman was elected president of the Perry County chapter of the American Cancer Society at an organizational meeting of interested persons held here last week.

Other officers elected were Mrs. Bill Fouts, vice-president; Mrs. Jake Kimberlin, secretary; and Mrs. L. L. Mathis, treasurer.

Names to the board of directors were Mrs. Joe Duncan, Mrs. Eli Boggs, Mrs. James Ritter, Mrs. George Vaughn, Mrs. Pearl Bobbitt, Mrs. Erman Wirtz, Mrs. Jean O'Combs, Mrs. Frank Smith, Mrs. Ann Stewart, Mrs. Peyton Mitchell, Bruce Stephens, J. Frank Miller, Jake Smith, E. H. McGuire, Bill Gorman, Bobby Cisco and George Kawaja.

Representing the A.C.S. at the meeting was Chester N. Mielcarek, field representative from Lexington.

Discussed were plans for an all-day meeting to be held here at the First Methodist Church, Feb. 20, from 9:30 a.m. until 2 p.m. Speaker will be Wendell Ford, Owensboro, past national president of the Jaycees, and 1958 campaign fund chairman for the cancer society in Kentucky.

Fire Blazes Near Hospital

A small debris fire blazed on Lovern Street, near the Mt. Mary Hospital, at 6 o'clock last night.

Fire Chief Lawrence Sizemore said this morning the fire started when a sidewalk flare ignited the debris. No damage resulted.

C'mas Mail Runs Heavy

The Hazard Post Office handled nearly a million pieces of mail during the past Christmas rush season. Mrs. Allie D. Gorman, acting postmaster, announced last week.

According to Mrs. Gorman, the post office distributed approximately 900,000 of first class mail, 20,000 pieces of parcel post, and received approximately 6,000 sack of mail by truck from Lexington and the star routes served by the local post office.

Mrs. Gorman said it is "gratifying to note the cooperation of the public in using the local and out of town labels which were furnished to them, and to note the early mailing by patrons, all of which contributed to easier and faster handling of the mails, enabling all classes of mail to flow through this office without delay."

Mrs. Gorman credited the local post office's new "Mailsters" with helping to improve

efficiency here.

She said of the Mailsters, put into operation Nov. 5. "They contributed to the relief of the carriers by relieving them of heavy loads and considerable relief from walking on their routes." She also said the Mailsters operated on icy streets where it was impossible for cars to drive.

Mrs. Gorman also credited radio station WKIC and the Hazard Herald newspaper with keeping the public informed on the Christmas mail situation.

She said that through the cooperation of the radio and newspaper, and the public, it was "possible for postal workers to work very little overtime and handle the mail with less effort than in past years."

Public Hearing

A public hearing on the proposed Urban Renewal project situated on the south end of Main Street, Hazard, will be held at the Hazard City Hall, Monday, Jan. 20, at 1 p.m. All property owners and other interested persons have been invited to attend.

City Approves Subdivision Agreement

A special meeting of the Hazard Board of Commissioners Friday approved a subdivision agreement between the City of Hazard and the Federal government for 200 units of public housing here.

The agreement is a formality indicating the city's intent to furnish utilities and pavement if the subdivision when if and when the Federal government authorizes construction to begin.

The housing, for low income families, is one of several projects included in the city's development program for 1958.

VFW To Hold District Meet

A district meeting of the Veterans of Foreign Wars will be held in Hazard, Saturday, Jan. 18, starting at 6:30 p.m. Johnny Calitri, local post commander, announced this week. Attending will be delegations from posts in Whitesburg, Cumberland, Pineville, Neon, Marchesier and Hazard—cities making up the 14th District.

Calitri said a dance will be held following the business meeting. Playing will be the band of James Womble.

Discussed during the meeting will be projects for the annual V.F.W. Weew, being held this year, Jan. 19-25.

In charge of the meeting will be Ralph Disney, Manchester, district commander.

Trading Post.

Paintsville is located on the site of Paint Lick Station, an old trading post. On the hills surrounding the city, many Indian graves and burial mounds have been found and artifacts, such as pipes, tomahawks, pottery and beads have been taken from them.

One Felon Still At Large

Only one of the five felons who broke jail here last week remains at large following the recapture of Curt Colwell at his family's home in Combs.

Colwell was picked up at noon Saturday by Sheriff Paul Amis and his deputies.

Three others, Arthur Fugate, Willard Couch and Tommy Smedley were all recaptured at the mouth of Lotts Creek, Thursday afternoon.

Still at large is Wilgus Anderson, charged with grand larceny.

The five broke out of the Perry County jail Tuesday afternoon sometime between 4:30 and 6 p.m. The break came sometime after they were served dinner.

Hacksaw and Spoon

The five used a hacksaw to break out of the jail's iron cage, and then "spooned" their way through the brick wall and \$5,000 in electric dynamite lowered themselves to the ground.

At the time, County Jailor Charlie Maggard said the hacksaw was apparently been "in the jail" sometime. It was used to saw away several bars at the top of the cage. Maggard said he and his men had been searching all persons who came into the jail, and he did not think the hacksaw was passed during the week.

The five broke through the brick wall by spooning out the mortar. The cut a hole approximately 14 inches in diameter.

40 Have Escaped

The jail break brings to over 40 the number of prisoners who have escaped the jail in the past four years.

Couch and Smedley are charged with breaking into the Spec Cornett Distributing Co. last year and stealing over \$5,000 in electric dynamite caps.

Fugate broke into the bus station last year. Colwell broke into the Allison Minard store, Big Leathwood, last summer, and Anderson is charged with robbing a schoolteacher at Yerkess.

Folks, since we always want to get off on the right for a new year, if I can offer any suggestions that will help any of you, I will have been well repaid for my efforts. Since a new year has just started I would suggest: a good way to start it off with, is to go to your Social Security Office and make a check on where you stand on your Social Security.

You know that should be a must in your life. You like myself are looking forward to drawing it. Maybe it will be several years off. Nevertheless I would say that it will not do you any harm to check now and then. Did you ever think that someone worked for did not turn your part in.

Folks, if you wait until that time you are supposed to draw it. You might find your Social Security check being short. This will also cut maybe some of your hunting and fishing trips short because you were expecting to draw more. Now is the time to take advantage of what you are paying in, find out just how much you will expect to draw from your Social Security Plan. I would like to know just now many of you that are already drawing Social Security to know what it meant to you during this past Christmas. I would say you were able to buy some presents for your grand children, you felt independent as any American should. You were proud to be able to do this on your own.

Incidents Will Happen

Few days ago I had the pleasure of meeting a gentleman by the name of Jim Gabbard. He told me that he had read my column in regard to the white bird that Mrs. Bill Brown had talked to me about. Mr. Gabbard related a very fine story to me in regard to a solid white coon that he helped catch in Butler County. When he mentioned Butler County, I immediately replied to what section and etc.

Folks, I married a gal from down that way, also did a lot of hunting and fishing from that area. That was in the early thirties. Boys, believe me, I have my quota from that section. I asked Mr. Gabbard what he was doing this far away from home. He replied that he was with the Social Security Dept. Meeting a Butler County man to me was just like meeting a Perry County friend.

Folks, regardless of your age and retirement, let me suggest that you visit your local Social Security in January, find out your status.

ues in regard to what you are paying in. Be prepared for those hunting and fishing trips when you reach that age. Ask for Alma D. Knox, who is your district Manager or Mr. Gabbard. Or any of the friendly employees that work there. Sorry I can't give you all their names. I am sure that you will find them all willing to give you the information that you should have.

Folks, I would say that you should know more about it, so why not call on them today. Regardless of what you intend to do after your retirement. It is nice to know that you have paid into something that will assure you some pleasures and peace of mind after you stop working. That you will not be a dependent upon dependents. I would say hunt fish, trap the rest of the world go by.

PAPER PULPIT

Non-Sectarian—For The Unchurched

This man from outer space, Jesus Christ, the real super-man! He not only was a being who came from outer space, but retired to outer space when He was through with His work here. He asked, "What and if ye shall see the Son of Man ascend up where he was before." (John 6:62) Just before He went back He said, "And now, Oh Father, glorify thou me with thine own self with the glory which I had with Thee before the world was." "I manifested Thy name to men. I have given to them the words which Thou gavest me; and they have received them, and have known surely that I came out from Thee, and they have believed that Thou didst send me." (John 17:5-8)

A little later, He came out of the tomb with a new kind of body that could transport itself immediately from one place to another, and pass through walls and doors, a spiritual body, adapted to spiritual purposes, yet a body, like our bodies yet different, as the plant is like the seed yet different. Finally He ascended from this earth to outer space in the sight of His disciples with an audible announcement that He would return as He went.

He's ahead of everybody else in the science of outer space. He knew all about "teleportation" and "levitation."

Janitor Replies To Statements

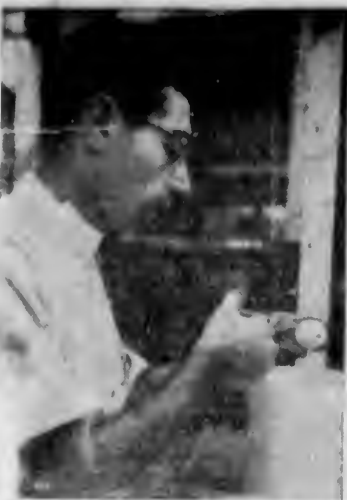

I have been a janitor at the M. C. Napier High School since the school started, six years ago. It has been the custom for each teacher to take care of his or her room. All teachers have cooperated in doing this with the exception of Mr. and Mrs. Isaac Fugate.

There are only two janitors at the M. C. Napier High School and we have worked all summer redecorating the entire school building. The floors of all classrooms were waxed during the summer, and have also been waxed during other vacations. We do our best to do a good job, but we also need the help of the teachers in the school. We have brooms, brushes, and

dust cloths in every room, for the teachers' convenience. I know very little about Mr. Fugate's teaching ability, but I do know that he is a poor house keeper. It would have taken a janitor's full time to keep things straight after Mr. Fugate. Every afternoon for four months, when I checked the teachers' rooms, I found the same condition in Mr. Fugate's room. It looked to me like the children had just had a nice coke party.

'Dimes' Research Seeks Drugs Against Viruses

NEW YORK—An egg is prepared for laboratory studies of influenza virus.

UTAH—A microscope is used upside down to study viruses in drug research.

MICHIGAN—Drugs are carefully placed in solution before being tested in mice.

Three research projects supported by the March of Dimes are spearheads of efforts to find drugs that will be effective against many virus diseases other than polio. Antibiotics are potent weapons against bacteria, but up to now no such wonder drugs have been found for viruses.

In New York, at the Rockefeller Institute for Medical Research, Dr. Igor Tamm is director of a project which is studying the action of drugs against polio, influenza and other viruses. Scientists are investigating how slight changes in the chemical structure of compounds have a tremendous influence on their ability to restrain virus multiplication in living cells.

At the University of Utah in Salt Lake City, a team under the leadership of Dr. William J. Burke is searching for a substance in crude gallic acid which appears to give monkeys some protection against paralytic polio. The substance, still

unidentified, does not occur in pure gallic acid, but in the raw form of the chemical, made from a growth which appears on a species of oak tree grown in China.

At the University of Michigan in Ann Arbor, drugs which in preliminary experiments have proved hopeful are tested further in mice and monkeys. The project is headed by Dr. Thomas Francis Jr., who made the official evaluation report on the Salk Vaccine.

Hundreds of drugs have been studied over the years in man's search for compounds effective against polio and other viruses.

Although polio virus is used more than any other in the projects supported by the March of Dimes, scientists hope that if they find a drug effective against this disease they will have made a break-through toward finding drugs that can be used against the other virus diseases that plague mankind.

The First Governor To Win And Lose On An Issue

Charles F. Hinds

Frankfort—The first Governor to win an election on an issue as well as on a striking personality and a military record was Governor Joseph Desha, Kentucky's eighth Governor (1824-28).

Kentucky had not known material progress since the beginning of the War of 1812, but by 1820 and Adair's administration, the Commonwealth was in the throes of a long and serious depression. Debtors were the first to feel the effects of the slump, followed by the creditors. In 1815 the debtors were given relief under the replevin law of that year which allowed a maximum of one year to settle their obligations. Since a twelve-month moratorium provided little actual relief, the effect of this pernicious law was to ruin the creditors as well or, at least, to hamstring business.

Governor Desha, now enters the picture as the leader of the Relief Party, dedicated to the

relief of the debtor class. In opposition was the Anti-Relief Party. In 1823 Desha was elected Governor by a majority of 10,000 votes, thus giving Governor Desha an apparent mandate from the people in favor of the debtors.

The Kentucky Court of Appeals, in the election year of 1824, had ruled the Replevin Law of 1815 unconstitutional. Whereupon, with the aid of Governor Desha, the State Legislature in December of 1824 abolished the Old Court in favor of a new one, more amendable to the relief cause. Sides were taken quickly, the Anti-Relief now called the Old Court, and the Relief Party, the New Court. Both courts held sessions and received considerable support until December, 1825, when the Old Court finally emerged as victor. In the meantime, the prestige of Kentucky and of Governor Desha declined.

The Governor's popularity reached an all-time low, perhaps, in 1827 when Desha pardoned his son, Isaac Desha of a murder-robbing conviction. In the following year, Isaac was arrested in Texas and charged with another murder, but probably died before a trial could be held.

Governor Desha retired in 1828 to his farm in Harrison County. He died and was buried in Boone County in 1824. Later, one of the Legislatures provided for the monument which now marks his grave.

Thurman Mentions Unlicensed Firms

C. P. Thurman, commissioner of Kentucky's Insurance Department, has called attention to several companies which are doing business in Kentucky without licenses.

Unlicensed companies doing business in Kentucky through the mail, he said, are Mercury Life Insurance Co., San Antonio; Old American Insurance Co., Kansas City; National Bellas Hess, North Kansas City; American Family Life Insurance Co., San Antonio; Automobile Owners' Association, Kansas City, and Illinois Commercial Men's Association, Chicago.

Reports to the department say the Jefferson Insurance Co., Pine Bluff, Ark.—unlicensed to operate in Kentucky—has been writing business around military posts in the State. Thurman added.

Other companies, Thurman said, which are not licensed in Kentucky, have requested permission from Fort Knox authorities to write business on the post. These companies include Universal American Life Insurance Co., Little Rock, Ark.; Services Underwriters, Pine Bluff, Ark.; and Clarksville, Tenn.; World Wide Life Insurance Co., Morriston, Ark., and American Armed Service Underwriters, Inc., Montgomery, Ala.

Italian Hill Town

Maysville as seen from the Ohio side of the river, resembles an Italian hill town, built on the steep slope of the riverbank, terrace on terrace, with gray walls and red roofs against a green background.

Mount Vernon

Mount Vernon, seat of Rockcastle county, was incorporated in 1817 and is in the foothills of the Cumberland Mountains, a region in which isolated knobs and ridge tops rise to a height of 1,500 to 2,500 feet.

Wanted: A Queen For America's Springtime Spectacular The Ky. Derby Mine Group To Meet At B'field

It's cold day in January, but much later than you think, according to the Kentucky Derby Festival Queen Committee. Miss Shirley Thompson, State Chairman of the Derby Queen Contest, announced that some fifty energetic people are hard at work throughout the State of Kentucky in search of the Southern Beauty who will reign as the 1958 Kentucky Derby Queen. The girl they are looking for must be beautiful, poised, personable and possess a pleasant speaking voice. Talent will not be necessary.

When the perfect Miss is found to wear the Golden Crown, she will be off on a path of fame, fortune and unlimited opportunities. The Derby Queen's first regal duty will be as honor guest at the Cherry Blossom Festival in Washington, D. C., where she will attend the ball, parade, dine with the President and or Vice-President of the United States.

National television appearances, movie studio interviews and a day at John Robert Powers modeling agency will await the Derby Queen in New York. She will endorse a few

products, pose for national advertisements and see some of Broadway's top musicals before departing the City of Skyscrapers for the Bluegrass Country.

When her majesty returns to Kentucky, she will find a treasure chest of valuable prizes to be awarded. Royal gifts will include \$500.00 cash. A mink coat, \$100.00 worth of hats by the top millinery designers in the world. A coronation gown, especially for her, a three month supply of Bryan Hovary, and many more presents. A coronation ball will be given in her honor; a magnificent float will carry the Royal Court in the Pegasus parade; and on Derby day, it will occupy the box of the President of Churchill Downs.

A Cinderella Dream come true for some girl, somewhere in Kentucky. Can this girl be you? The slipper fit? To enter the Derby Festival Queen Contest, a girl must be between the ages of 17 and 25, never married, and a resident of Kentucky for one year prior to January 1, 1957. She must be sponsored by a non-commercial organization, civic, fraternal, educational, religious or social. (No entry fee is required on the part of the sponsor or the contestant.) She must file application at State Headquarters of the Derby Festival Queen Contest, City Hall, Louisville, Kentucky. Two photographs, one

headsize and one full length, must be forwarded with application, and postmarked no later than midnight, January 31, 1958. Application blanks are available at this newspaper office or by writing direct to State Headquarters.

Ballroom have been raised out of the 1958 contest and the official dress of the winners will be sheath dress and white formal.

First elimination will be photographs, followed by contest held in three regions of the state: Lexington, Owensboro, and Louisville. Finals will be held in Louisville on March 15.

Ky. State Park Plans Day Camp

Fun and activities of a children's day camp will be part of the planned recreational program at Kentucky Lake State Park this summer, announces Mrs. Ben Kilgore, state parks director.

This Kenlake Day Camp for youngsters 5-14 years old, will be for children who are guests with their parents at Kentucky Lake State Park. Trained personnel will supervise the activities.

The schedule, as outlined by Mrs. Kilgore, begins at 9:30 o'clock in the morning, when a counselor arrives at Kenlake Hotel to accompany the boys and girls to the camp for the day's activities. They will return late in the afternoon.

Lunch will be served at the camp and there will be supervised play for the children, Mrs. Kilgore continued, "all at a nominal charge."

This will be an added service to guests of the parks and is being inaugurated so vacations will be enjoyed by all members of the family, she said, adding:

"A day camp has been needed to give parents some free time during vacations as well as provide supervised play for the children during the day."

Gov. Names Two Nuclear Members

Clay Shackelford of Richmond and James A. Miner of Madisonville were recently sworn in as new members of the Kentucky Advisory Committee on Nuclear Energy.

Shackelford, chairman of the Workmen's Compensation Board will represent the legal profession. Miner is a coal executive.

The committee was created last June 13 by executive order of the Governor. Purpose is to keep the Governor and State agencies informed of activities and opportunities in nuclear energy.

The eyes of the mining industry will be focused on Bluefield, W. Va., next May 21-23, when the 14th edition of the Southern Appalachian Industrial Exhibit will be held.

Known throughout mining circles as the Bluefield Coal Show, this exhibit attracts thousands of visitors from the coal producing regions of Virginia, Kentucky and West Virginia.

It is the largest industrial show in either of the two Virginia and has grown in stature since its humble beginning in 1934. When the doors are officially opened on Wednesday morning, May 21, at 9 o'clock visitors will see more than two miles of equipment, machinery and supplies for the industry. Altogether, there will be more than 300 exhibiting firms, occupying more than 350 booths.

The Bluefield show is held on alternate years with the American Mining Congress exhibit in Cleveland. The Bluefield show occurs on even years and the Cleveland show on odd ones.

Albert S. Kemper, Jr., president of Premier Pocahontas company, Bluefield, will serve as general chairman. H. E. Mauck, general superintendent, Olga Coal company, Coalwood, W. Va., will serve as vice chairman. He was general chairman for the last show, held in 1956. James B. Woodbridge, Jr., assistant secretary of the Pocahontas Operators Association, will again serve as director. He has served in this capacity with the exhibit since 1950.

Sponsors of the show are the more than 500 members of the Pocahontas Electrical and Mechanical Institute and Bluefield and area mine and mill supply firms. The exhibit is staged in the Norfolk and Western railway company's spacious freight station. Work has already begun to transform the station into a gigantic exhibition arena.

Show officials predict that a record turnout is expected, exceeding the three-day record established in 1956 when more than 62,000 persons attended.

To promote interest throughout the mining industry, show officials have developed numerous sidelights over the years

that greatly enhance the event. Of number one interest is the biennial Pioneer Miners' Reunion. This phase is one of the more unique. To be eligible, a member must have worked 10 or more years in or around the mines without a lost time accident. At the last Reunion, more than 900 men were present.

J. W. Clark, Pocahontas director, Pocahontas Fuel company, Pocahontas, Va., is Reunion chairman.

A new sidelight will occur this year. High school students of the top three grades in West Virginia, Virginia and Kentucky mining regions are urged to submit inventions, drawing or scale models of some phase of mining. The winner will receive cash awards on the closing day of the show. This committee is chaired by W. A. Fullerton, special assistant to the president, Pocahontas Fuel company.

Other events that have developed over the years are the Gadget contest, the Fossil contests, and the selection of the coal show queen and her attendants.

William P. Schinnerer of the Pocahontas Land company, Bluefield, will chairmen the Gadgeteers and Frank Hancock, vice president, Bluefield Supply company, will chairmen the Fossil contest.

Community Church Holds First Supper

Mrs. Sam Ferguson

Church Supper

Johnnie Sizemore of the U.S. Air Force left this week after spending three weeks with his mother, Mrs. Jody Ritchie and family. He has completed his training in Florida and now believes he will be sent overseas.

Miss Jody Helton has returned to Maryville College after spending the holidays with her parents, Mr. and Mrs. Virgil Helton.

Mr. and Mrs. Loran Ferguson and son, Von Jr., Dayton, Ohio, and Jimmie Ferguson and daughter, Debbie, Higginsport, Ohio, spent the past week end with Mr. and Mrs. Timmie Ferguson.

We extend our deepest sympathy to the family of Mrs. Edna Mercer, who passed away at her home last week. Her death was a shock to everyone, as she was ill only two or three days. She leaves her husband, Charles, and eight children, the youngest being seventeen months, a son, Forrest, who has been in the Army for some time, was here with his wife and children from Texas when his mother became ill.

Mrs. Sam Ferguson spent last week with her parents, Mr. and Mrs. Frank Gevedon in Morgan County. Mr. and Mrs. Gevedon left Monday to spend the remaining part of the winter in Bradenton, Fla.

Mallie 4-H News

The Mallie 4-H Club met in December for their first meeting of the new club year. The president, Clara Jo Bentley, called the meeting to order and led the pledges to the American flag and the 4-H flag. The secretary, Phyllis Stone, called the roll and announced the newly elected officers of the club. The song leaders, Ethel Bentley and Mabel Stone led the club in singing "Silent Night."

The president announced the program which was "Fund Raising Activities." Those taking part in the program were: James Ray Pridemore, Douglas Williams, Olive Mae Moore, Johnny Ritchie, Peggy Ann Moore, Ethel Bentley and Clara Jo Bentley.

Mr. Stamper then presented the project books and gave some helpful hints in carrying out the various projects.

Planning Group Seeks New Laws

The Eastern Regional Planning Commission has adopted a resolution favoring amendment of existing state planning statutes to permit third to sixth class cities to join with their counties in forming joint planning and zoning commissions.

The Commission took the action during a meeting at West Liberty in Morgan County. At present, only first and second class cities may join with their counties to form such joint agencies.

The Commission also urged by resolution the "early enactment" by Congress of the "Omnibus Rivers and Harbors Bill" and exhibited special interest in a section which would permit the U.S. Army Corps of Engineers to construct water storage facilities for augmentation of low-flow streams. Such facilities would be constructed without reference to a cost-benefit analysis widely diffused.

Breathitt Drops Panthers, 94-45; Dilce Takes Leslie, 61-54

Dilce Combs' Panthers, improving as the season advances toward the district tourney, dropped a big one, Friday night, losing to a top ranked Breathitt County quintet 92-45.

The loss was Dilce's third in four outings about the region the past two weeks.

The charges of Coach Jim Buckner came close to whipping Hazard before losing, 55-49, threw a scare into Whitesburg but lost 50-49, and then broke a losing streak by busting Leslie County, 61-59, before bowing to the all-powerful Breathitt squad.

Breathitt's Cundiff improved

his 26-points-per-game pace again Dilce, hitting for 40 points on 14 field goals and 12 free throws. High for Dilce was Bach with 11 points on four field goals and three charity tosses.

From a 23-7 first quarter advantage, the Bobcats widened their lead in all stanzas.

A strong fourth quarter by Leslie County almost sent the Panthers home on the losing end. In the final stanza Leslie hit for 27 points. At the end of the third, Dilce led 44-32. Tops for Dilce was Begley with 29 points; high for Leslie was Don Ray with 16 points.

Accuracy at the free throw line kept Hazard from falling before the charges of Coach Jim Buckner. Outshot from the field, 21-14, Hazard connected on 26 charity tosses while Dilce converted on but 6.

High for Hazard was Bob Baker with 17 points, tops for Combs was Begley with 16.

In the role of the upstart again, Dilce almost took the sting out of the Whitesburg Yellowjackets.

After leading at the half, 31-27, Combs fell apart in the third quarter as Whitesburg hit for 17 points while the locals were getting but 11.

High for Dilce was Combs with 16 points. Scoring honors for Whitesburg were taken by Stidham with 17.

Civil Service Week Set For 12-18

We are reminded by Post Mistress Alice Gorman that January 12-18 is Civil Service Week. Almost three quarters of a century ago, on January 16, 1883 the Civil Service Act was signed into law. This signing is important to all American citizens.

To the one who applies for a Federal job and for the one who is a Federal career worker, the merit system is a guarantee that he may qualify for a job on the basis of ability to do the

work, without discrimination with regard to race, religion, national origin, or politics. It entitles him to consideration for promotions on the same basis and it provides protection from arbitrary dismissal and from being obliged to render any political service or tribute.

To the citizen who is not a Federal employee and who does not seek such employment, the merit system guarantees selection of the best qualified people available for the public service.

It requires of public servants high standards of conduct and competence in their employment.

To all citizens it means a stable Government service capable of preserving the continuity of essential Government required by the American people. It means freedom from the upheavals of the old spoils system which, with each change of administration, saw such mass removals of Government workers that the Government machinery was frequently brought to a complete standstill.

The civil service system over the years since its founding

has been held to be a guarantee to the public of Government administration in the best interests of all the people. President Theodore Roosevelt said in 1906, "... I am inclined more and more to feel that the observance in letter and spirit of the civil service law is the first requisite in obtaining clean, decent, efficient government service in any branch or bureau of the government."

Mrs. Gorman reports that the plans are to make 1956 a Civil Service Year. This should provide a fine opportunity for the public to learn what a merit system means in orderly governmental operations.

Plans Under Way For Sponsorship Of Nuclear Forum

"The Fall of 1957 might well be remembered as the time that Kentucky adopted a positive program to claim some of the benefits of the friendly atom and converted them to the service of the people," said Robert H. Solomons, Director of the State's newly created Nuclear Information Division. Solomons writing in the Commonwealth magazine, published by the Legislative Research Commission, said the aims of his division are to:

Strengthen Kentucky's efforts to bring desirable new industry into the State by utilizing nuclear energy products and publicizing nuclear achievements and opportunities in Kentucky.

Acquaint Kentucky's manufacturing industry and farmers with opportunities for new markets related to the atom, and keep them informed on developments in the nuclear field.

Acquaint the general public and government, business and professional leaders with the basic facts on the application of nuclear energy.

Provide information and assistance to other agencies of the State and to industry and other private organizations.

Solomons said although only three-fifths of one percent of the industries in the nation are using radioisotopes (a form of atom radiation), last year they saved approximately \$400 million by its application.

As of November 1, four li-

Eight Companies Admitted To State

Eight insurance companies were issued licenses during November and December by the State Department of Insurance. C. P. Thurman said the companies had been thoroughly checked before being admitted to do business in Kentucky.

The companies admitted are Atlantic National Insurance Co., Miami Consolidated Insurance Co., Indianapolis, Globe and Republic Insurance Co. of America, Philadelphia. The Hartford Mutual Insurance Co., Hartford, Conn.; Lutheran Brotherhood, Minneapolis; North American Life Insurance Co. of Chicago; Consolidated American Insurance Co., Columbia, S. C.; and General Life Co. of America, Seattle.

licenses for handling radioactive source material had been issued by the Atomic Energy Commission. In addition 52 other firms and institutions have been licensed to use radioisotopes.

One important potential use of radiation is in food preservation and processing. Solomons said. A food processing laboratory established at the University of Kentucky is doing research in this field.

Solomons said plans are being developed to conduct a state-wide forum soon. The new division will sponsor addresses in nuclear industry, medicine and agriculture to acquaint persons with the progress and research being accomplished.

Board Asks Reserves Return Info Sheet

All standby reservists are requested to complete and return within the time specified, their standby reserve questionnaires received from Local Board No. 81, Hazard.

The following reservists are requested to contact the local board immediately by letter or in person: Virgil Allen, Garrett Bowling, A. W. Campbell, Cordell Childers, Ralph Collins, Leonard Combs, Olaf Daniels, Tommie Duncan, Price McIntosh, Burns G. Napier, Gordon Napier, Herman Robinson, Lawrence Smith, William G. Walker, Clyde Watts, Eugene Watts, and J. B. York.

All 18 year olds are reminded that they are required by law to register within five days after reaching their 18th birthday.

State Mails Tax Forms

Mailing of 1957 State income tax returns to taxpayers has been completed, according to Revenue Commissioner J. E. Luckett.

Distribution of the forms will be made to revenue department field offices in Ashland, Covington, Lexington, Louisville and Paducah, to all courthouses and to most banks, Luckett said.

The commissioner reminded wage earners that Form K-2 (statement of earnings and taxes withheld) must be attached to their income tax return. Therefore returns should not be filed until K-2 is received. Employers are required to furnish this statement of earnings to employees not later than January 31.

Luckett pointed out that taxpayers should carefully read the instructions for filing returns and check all computations carefully to avoid needless correspondence.

Deadline for filing is April 15, but taxpayers are urged to file early to facilitate processing for those entitled to refunds, Luckett said.

Tough jobs demand a Universal 'Jeep'

Traction. 4-wheel drive gives the extra traction for traveling up steep grades or broken ground. The 'Jeep' is built to stand up and take it in tough usage.

Mobile power. With power take-off, the Universal 'Jeep' provides mobile power for operating welders, compressors, generators and many other kinds of specialized equipment.

Hydraulic lift. With hydraulic lift, the 4-wheel drive 'Jeep' operates graders, scrapers, post hole diggers and most 3-point hitch implements.

Now a 'Jeep' with longer wheelbase — the new model G-6. Carries larger, heavier loads, has all the features that made the 'Jeep' famous.

A 4-Wheel-Drive Universal 'Jeep' takes you to the job, wherever it is — on the road or off! This rugged performer carries men and equipment over the highway in conventional 2-wheel drive. Then, when work calls for travel off the road — through mud, sand or snow, up hill or down — you shift a single lever for the extra traction of 4-wheel drive. With power take-off, or hydraulic lift, the Universal 'Jeep' does an almost endless variety of jobs. To find out what it can do for you, ask for a demonstration.
